

Mrs. Wiggins'

Learning together • Working hard • Having fun • Developing character

Weekly Note

Weeks of Nov 11th

A HUGE thank you to students in my homeroom as well as this in Mme. MacLaren's homeroom for ALL of their help and hard work setting up for our GMS Remembrance Day Ceremony on Monday. It was an enormous undertaking and everyone pulled together and did what needed to be done in order to set up chairs, decorate walls, and prepare speeches and poems - we used 17 rolls of masking tape! We received a great deal of of praise and appreciation from students, staff, and members of the community.

Well done and THANK YOU!

Karen

Math

Over the past week we focused on data management and have learned how to create circle graphs using information in a frequency table. We also reviewed mean, median, mode, and range and worked on some purposeful practice and word problems related to those concepts. **Looking ahead...** we will spend some time looking at misleading graphs and link them to media literacy and take a brief look at "fake news". (We didn't get to this last week, so will continue with it next week). There will be a misleading graph assignment given this week.

Check out the photos on the 2nd page of this note!

English

Over the past week students have reviewed making connections and read a story about carrier pigeons in WW2. They were able to make additional connections watching the Disney movie "Valiant", a cute film about carrier pigeons in WW2. **Looking ahead...** students will be looking at "fake news" as it links to graphs in math.

Music (EMF7B)

This week we did not have music as it was a snow day. **Looking ahead...** Students will have their first playing test (#18 - "Hot Cross Buns") on November 19th!

On my website this week you will find:

- TUSC roles for November 20th

On Google Classroom students can find...

- Misleading Graphs (assigned Tuesday)
